

PROFESSIONAL FORUM FOR NURSES

August 4, 2010

eQHealth Solutions of Louisiana
Attn: Mr. James Huval
2851 Johnston Street
Lafayette, LA 70503

Dear Mr. Huval,

Words are inadequate in expressing our thanks for your part in making the Professional Forum for Nurses such a success! The "Diabetes Empowerment Education Program/D.E.E.P." presentation was well received. Many who attended stated that it was very informative and that they would be using the knowledge gained when treating patients. One comment received in particular was worth noting, "The class "D.E.E.P." was absolutely wonderful; it provided so much practical information and it also is going to cause me to be more sensitive to my patient audience when I have to teach them to care for themselves. I think I forget that some people may not understand written language as well as others."

With heartfelt appreciation, we thank you for stepping in and doing such a wonderful job! When Dr. Fatemeh returns, she will be happy to hear how well everything went. Again, many thanks for your time, efforts and contributions.

Sincerely,

Mary Sue Hall, R.N.
