To: Janice Hidalgo

St. Gabriel's Senior Center would like to thank you and IPRO staff for the opportunity to participate in the *Every Diabetic Count* initiative. Through this six week initiative, our members gained valuable information on how to manage their diabetes through hands on demonstrations and interactive participation in the classes. Judging by our 30 graduated participants who spoke highly of the three trainers, Jane, Rita and Marylyne, the classes were successful in maintaining interest in diabetes self management.

We look forward to *our* collaborating on a fourth go-around of classes in the Summer!
